

SMART AUTOMATED BEHAVIOR INTERVENTION PLAN

Prepared by:
Jasmine Jing Mangayan

Abstract

This project presents an automated Behavior Intervention Plan (BIP) tool designed to support teachers and SPED practitioners in creating structured intervention plans for learners with behavioral needs. To strengthen intervention planning, the system integrates selected Functional Behavior Assessment (FBA) components, allowing users to gather behavioral data, identify possible triggers, and determine the function of student behavior before selecting appropriate strategies.

The tool includes sections for student information, behavioral observation, antecedent-behavior-consequence analysis, intervention strategies, theoretical framework generation, legal basis references, and automated summary reporting. It was developed to simplify documentation, promote evidence-based decision-making, and connect classroom practices with educational theories and inclusive education policies.

By combining assessment, planning, and reporting into one digital document, the project provides a practical resource for classroom behavior management, case documentation, and collaborative support planning in inclusive educational settings.

Clinical Reports

Medical Info/Primary

Secondary

Severity

Diagnosis Date

Core Strengths & Interests

Clinical Notes / Existing Supports

II. Functional Behavior Assessment (ABC Data)

Target Behavior Definition (Operational)

Describe the behavior in specific, observable and measurable terms.

Frequency

Intensity

Duration

Latency

Antecedents (Triggers)

Task Demand / Difficulty

Transition

Sensory Input / Loud Noise

Change in Routine

Crowded Space

Waiting

Peer Conflict

Denied Access to Item

Other:

Behavior Types

Physical Aggression

Verbal Outburst / Yelling

Non-Compliance

Self-Injury

Tantrum / Meltdown

Elopement / Wandering

Property Destruction

Repetitive Movement

Other:

Consequences (Results)

Escape / Avoidance

Correction / Redirection

Adult Attention

Peer Attention

Access to Tangible Item

Verbal Reprimand

Loss of Privilege

Timeout / Removal

Other:

Setting Events (Slow Triggers)

- ☐ Medication Changes
- ☐ Lack of Sleep
- ☐ Physical Illness / Pain
- ☐ Home Environment Stress
- ☐ Hunger / Thirst

III. Function Hypothesis

Hypothesized Functions

- ☐ Escape / Avoidance
- ☐ Access to Attention
- ☐ Access to Tangible/Activity
- ☐ Sensory / Internal Stimulation

Hypothesized Functions

IV. Behavior Intervention Plan (BIP)

A. Prevention Strategies (Proactive)

- ☐ Visual Schedule
- ☐ Simplified Language
- ☐ Choice Making
- ☐ Task Modification
- ☐ Priming/Warning
- ☐ Preferred Seating
- ☐ Sensory Breaks
- ☐ First/Then Board

Other:

B. Teaching Replacement Skills

- ☐ FCT (Communication)
- ☐ Coping Strategies
- ☐ Requesting Breaks
- ☐ Following Routines
- ☐ Self-Regulation
- ☐ Problem Solving
- ☐ Social Skills
- ☐ Frustration Tolerance

Other:

C. Reinforcement System

STUDENT MOTIVATION / PREFERENCES

- ☐ Token Economy
- ☐ Behavioral Contract
- ☐ Verbal Praise
- ☐ Social Recognition
- ☐ Edible Reinforcers
- ☐ Tangible Rewards
- ☐ Preferred Activity
- ☐ Earned Breaks

D. Response to Target Behavior

When the behavior occurs, staff will:

- ☐ Planned Ignoring
- ☐ Brief Time-out
- ☐ Verbal Redirection
- ☐ Loss of Privilege
- ☐ Visual Prompt
- ☐ State the Rule

CRISIS / SAFETY PLAN (IF APPLICABLE)

E. Data Collection & Monitoring

Target Criteria For Mastery

Tracking Method

Review Frequency

Legal Basis

- R.A. 11650: Policy of Inclusion for Learners with Disabilities.
- DepEd Order No. 44, s. 2021: Policy Guidelines for Learners with Disabilities.
- DepEd Order No. 40, s. 2012: Mandate for Positive and Non-Violent Discipline.
- R.A. 10533: Enhanced Basic Education Act (Learner-Centered Instruction).
- R.A. 7610: Special Protection of Children Against Abuse and Discrimination.

THEORETICAL FRAMEWORK
